

Petrochemical Application

Petrochemical Application

Count on Fisher Scientific for all of the consumables, instruments, equipment and supplies you need to produce consistent petrochemical application results. For more information, contact your Fisher Scientific sales representative or visit our website at www.fishersci.com.

Petroleum Processing

Crude Oil Evaluation

- Flash Point Meter
- pH Titrator
- Bath Circulators
- ASTM Thermometer
- Test Tube and Flask
- Atomic Absorption Spectrometer
- Distilling Apparatus
- Blender
- Funnel
- Vacuum Pump
- Stirrer
- Others Same As Crude Oil Analysis

Catalyst Analysis

- Balance
- Grinder
- Sieve Shaker
- Sieves
- Particle Analyzer
- XRD
- Atomic Absorption Spectrometer
- Surface Area and Porosimetry Analyzer
- Volumetric Flask and Flasks

Additive Analysis

- Balance
- Hydrometer
- Viscosimeter
- Flash Point Meter
- ICP
- Mass Spectrometer
- HPLC
- HPLC Consumables/Reagents
- Titrator
- Filter

LPG Analysis

- GC
- Autosampler
- Detector
- Gas Chromatograph
- Sulfur Detector

Gasoline Analysis

- Flash Point Meter
- 100-200 Silica Gel
- Hydrometer and Specific Gravity Bottle
- Colorimeter and Cuvet

Aviation Kerosene Analysis

- Flash Point Meter
- Hydrometer and Specific Gravity Bottle
- Capillary Viscosimeter
- Dewar Flask
- 100-200 Silica Gel
- Smoke Point Lamp
- Bath Circulators
- Colorimeter and Cuvet
- ASTM Thermometer

Diesel Oil Analysis

- Flash Point Meter
- Hydrometer and Specific Gravity Bottle
- Capillary Viscosimeter
- Filter and Filter Membrane
- Vacuum Pump
- Circulator
- Furnace
- pH/Conductivity Meter
- Refrigerator

Paraffin Wax Analysis

- Melting Point Apparatus
- Penetrometer
- Refractometer
- Bath Circulators
- Spectrophotometer
- Atomic Absorption Spectrometer
- Hydrometer

Lube Oil Analysis

- Viscosity Bath
- Capillary Viscosimeter
- Rotary Viscosimeter
- Stopwatch
- Bath Circulators
- Flash Point Meter

Bitumen Analysis

- Penetrometer
- Viscosity Bath and Stopwatch
- Capillary Viscosimeter
- Rotary Viscosimeter
- Stirrer
- Oven
- Ultrasonic Cleaner
- Rotary Evaporator

Coke Analysis

- Furnace
- Crucible and Gloves
- Balance
- Sieves
- Oven

Results count in Petrochemical Applications. Count on Fisher Scientific for everything you need to generate reproducible, reliable results every time.

- Choice of brands from trusted manufacturers for your petrochemical application ... ensuring your work is always of the highest quality
- Convenient, one-source access to a full suite of products from consumables to equipment ... improving productivity, reducing costs and helping you achieve long-term savings
- Services that streamline your business processes ... reducing your operating costs
- Laboratory safety and personal protection equipment ... minimizing the risk of worker injury
- The products you need for every application ... Cuvets, Sieves, GC, Balances ... from beginning to end
